

April 2021

April is here!! There is something so exciting about Spring that brings us a sense of renewing and of new life. After a long winter cooped in our homes, we are ready to open up the windows, let the fresh air come in and get some cleaning and organizing done. It is very refreshing and peaceful having a clean, decluttered home. Our older adults and disabled friends also crave this feeling, and are in much need of this in their homes and their lives.

ACC Adult Home Care is here to help with these tasks. Whether it's **light housekeeping, decluttering drawers and closets, clearing and cleaning the refrigerator, or cleaning the bathroom**, we are able to provide safe and reliable in-home services that older adults and disabled individuals can benefit from. It can be done as often as needed, with no frequency limit.

If you or a loved one is in need of this service, give us a call for a free, covid-safe consultation at (440) 320-3335.

## What our clients are saying

“ACC Adult Home Care worked closely with me and their staff to ensure Dawn’s needs were always met.” ~ Smitty Haller

## Employee Highlight

---

*Caitlin*

**Scheduling/Field staff Manager**

Caitlin joined our team in late 2020 as a field caregiver. Her genuine spirit and leadership skills stood out to our management team, opening up the opportunity to become our Field Staff Manager. We are so proud to have Caitlin as part of our family of experts.
