

# In-home caregivers are *heroes* too!

During these past few months, ACC Adult Home Care has seen an incredible increase of inquiries from families needing care for their loved ones, which has therefore increased the demand of our care in the community. Our staff has been working tirelessly, day-in and day-out, and has shown, time and time again, true dedication to their roles as caregivers. Whether it's been working additional hours, staying compliant with our Covid-19 precautions, or showing steadfast compassion during what has been trying and difficult times for themselves and our clients. They have stepped up to the plate and have gone above and beyond their call of duty.

We are extremely proud of our team and wanted to dedicate this month's newsletter to OUR HEROES!

## ABOUT OUR CAREGIVING TEAM?

We can proudly say that we have some of the most compassionate, hard-working team of caregivers in the industry. These past few months we have spotlighted multiple caregivers as "*Caregivers of the Month*" and recognized each and every one of them as OUR HEROES. We have awarded them Hero certificates, gift baskets, gift cards and recognized their hard work and dedication. This is the least we can do to show our appreciation for their hard work.

Our team of caregivers and professionals are ready to meet your patient's or loved one's needs. From one-on-one hygiene care, transportation, errands, or companionship; we are able to care for them in their safety of their homes.

Let us be there for you, when you are not able to.

Caregiver and franchise opportunities available. For inquiries visit our website.

## What our clients are saying!

"We would highly recommend ACC Adult Home Care of Vermilion. They did a wonderful job caring for our mother and keeping us all up to date and informed. We felt confident that they were caring for her well and looking out for her when we could not be there with her. They were kind, compassionate and caring"

~ Becky G.
